

A technical cross-section diagram of a road structure. The diagram shows a central road surface (1) with a dashed center line. On either side of the road are shoulders or curbs (2). Below the road surface is a base layer (3) with a cross-hatch pattern. Below the base layer is a subgrade layer (4) with a diagonal hatch pattern. Below the subgrade is a foundation layer (5) with a horizontal hatch pattern. The diagram is labeled with numbers 1 through 5, each with a leader line pointing to the corresponding layer.
